

# "DON'T INTERVIEW...AUDITION"

## CHAPTER ONE – PROPER ATTITUDE

### WHAT I KNOW TO BE TRUE...

**Your attitude is determined 10% on what HAPPENS to you and 90% on how you CHOOSE to react. You need to always remember you have 100% control over how you CHOOSE to react – or NOT react!**

Most individuals involved in a job search are not sales professionals, which is why the process is usually uncomfortable.

A job search requires you to sell your experience and skills to a future employer.

If you are not currently employed, your full-time job is your job search. You need to spend 40 hours a week working on your search. If you are currently employed, but seeking a job change, you need to dedicate at least 10 hours every week to your search. You need to become proactive and make things happen versus being reactive and waiting for things to happen for you.

Whether you think you will succeed or whether you think you won't succeed – you're right! What you think actually becomes your reality. What your mind can conceive and believe, your body will achieve.

There is a Law of Attraction that is extremely fair. It's not enough to want a new job; you have to expect it to happen! It's not an easy or even pleasant process at times. You can never have doubts about your ability to become the person you were put on this earth to become. You need to maintain a very positive attitude throughout the entire process.

Envision yourself already working in a job that would make you happy. Write down the following:

- What type of job are you doing?
- What are the functions of your job?
- What salary are you earning?
- What is your environment?
- What type of boss do you have?
- What are your advancement possibilities?

Now write down a Positive Affirmation you will read daily. Start this affirmation with the words, "I'm so happy because..." Write down the type of opportunity that would make you happy and read it several times each day, picturing yourself actually doing that job.

Start your job search today! Don't dwell on what you have experienced to date.

You can't change what has happened in the past, you can't change what you've done so far today, but you can change what you do from this moment forward.

In the past, you didn't have the tools you needed to succeed. Those tools are all included in this book. Once you read and implement them, you will enjoy greater results in your job search – guaranteed!

Take time, right now to write down your affirmation:

“I'm so happy because...”
